Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The Information Disclosure Statement filed on Oct. 17, 2003 is acknowledged.

Oath/Declaration

2. The declaration filed on Jul. 18, 2003 is acceptable.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "the magnifying lens main units" (claim 6, line 4) has no antecedent basis.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Feinbloom (4,364,645).

The limitations in claims 1-3,6 are shown in Feinbloom's Figs. 1-4, columns 2-4. Feinbloom discloses eyeglass frames 10 for mounting magnifying lenses, comprising a pair of support units 11,12 mounted on said eyeglass frames 10, each of said pair of support units 11,12 having an

Art Unit: 2873

engagement space 13,14 for removably mounting a pair of magnifying lens main units 17,18 containing a magnifying lens system within a tube.

Regarding claims 2,3 the carrier lens can consider as a plate and/or frame for the pair of magnifying lens main units 17,18.

Regarding claim 6, Feinbloom discloses a magnifying lens using eyeglass frames 10, being incorporated with a magnifying lens system in an engagement space 13,14 of a pair of support units 11,12 provided in the eyeglass frames 10, a pair of magnifying lenses 17,18 having an ocular tube is engaged, and each of the magnifying lens main units is removably mounted by a fixing mechanism 20,21 on the engaged support unit 11,12 wherein the magnifying lens system 17,18 is inherently included a predetermined focal length.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 4,5,7-13 rejected under 35 U.S.C. 103(a) as being unpatentable over Feinbloom.

Although Feinbloom device does not teach the exact the shape of the engagement space as that claimed by applicant, the shape, size, dimension differences are considered obvious choices and are not patentable unless unexpected results are obtained from these changes. Therefore, it would have been obvious to a person having ordinary skill in this art to modify the Feinbloom reference by forming a engagement space having the same shape as the applicant's. Such a modification would have no functional differences from the Feinbloom reference.
